MEMORANDUM FOR THE DIRECTOR OF LOGISTICS, CENTRAL INTELLIGENCE
AGENCY

Subject: Army Support to CIA Programs (S)

Attn: Mr. Henry Mahoney, Director

1. (S) We carefully researched our records concerning the loss of funds and insufficient attention to Agency support requests cited in your memorandum of 30 January 1986. There is no doubt closer attention by all concerned is required to prevent difficulties of this type in the future.

2. (S) We added our comments to yours and forwarded an official memorandum to the Director of the Army Staff. After a thorough review of the records maintained by the Technology Management Office, he provided me with a detailed study of the situation from the Army's point of view.

3. (S) It would serve no purpose at this point to rehash each of last year's items one by one. We approach this matter as an exercise to improve the service provided to non-DOD agencies, not an effort to assign blame, item by item. It is fair to say, after studying both sides and our own actions, we all can benefit from better communications and mutual cooperation.

4. (S) My Support Activities Branch staff, COL Hooten and MAJ Totten, are particularly anxious to resolve these difficulties and specifically want to prevent a recurrence of the confusion that was prevalent at the end of the last fiscal year. I will rely on them to set up working sessions with your people, the other players in our system, and joint sessions where required. Should you see problems developing in the future, please get them involved early in the process.
